Workout feb 24 /2026

Perfect.
We're locking in your final 4-day split based on:

- Monday OFF (full rest)
- Saturday OFF
- Heavy squats Sunday
- 50 hrs work + study
- Goal: lose fat + build muscle
- Extra focus: legs + arms
- Must include all body parts

This is balanced, efficient, and sustainable.

Progress Rule

Each week:

- Add 5 lb OR
- Add 1 rep per set

Never both at same time.

This is a complete, balanced, realistic plan for your life.

If you want next, I can:

- Set exact starting weights
- Build a progression chart
- Predict 8-week results
- Or adjust for heavy work weeks

You're now training intelligently. 💪
